Lorraine de Montluzin Semi-Finalist In Merit Scholarship Competition

Principal Donald Caldwell announced today, that one senior at Bay High School has been named Semi-Finalist in the 1965-66 Merit Scholarship competition.

The student cited for this high honor is Lorraine de Montluzin, daughter of Mr. and Mrs. Rene de Montluzin, Jr.

She is among the highest-scoring students in the state of Mississippi on the National Merit Scholarship Qualifying Test, administered last March in over 17,600 schools nationwide. More than 14,000 Semifinalists were appointed across the country.

To become Finalists, the students must substantiate their qualifying test performance on a second examination, submit recommendations by their schools, and fulfill routine requirements. All Semifinalists for 1966 will then be selected from the Finalist group.

Names of the Merit Scholars chosen from among the Finalists will be announced April 27, 1966. The exact number will depend on the extent of sponsor support. In 1965, over 2000 Merit Scholarships were awarded.

Each Merit Scholarship is a four-year award covering the undergraduate college years. The winner's stipend is tailored to his need, up to a maximum of \$8000 for the four years in most cases. For the student already financially able to attend the college of his choice, the award is \$400 for the four years. Winners choose their own colleges and courses of study.

Sheriff's Reports

A Tennessee man apprehended Monday night by Deputy Sheriffs Chester Favre and Lee Klein was turned over to U. S. Marshall Sam Peterson Tuesday and brought to Biloxi where he waived a preliminary hearing before U. S. Commissioner Verta Lee Swetman, who fixed his bond at \$5,000.

Deputy Favre said Ravin Allen Frazier, 24, who reportedly left Tennessee about a month ago was wanted on a warrant from Clarksville, Tenn., charging him with rape, larceny and unlawful flight from that state to avoid prosecution.

He was apprehended in Clermont Harbor, Favre added.

GAINESVILLE, Miss., September 21, 1965. Subcontracting activity with a total value of more than \$15 million and involving firms in eight states was carried out by General Electric Co.'s Mississippi Test Support Operation during the six-month period ending August 31, 1965, according to Malcolm D. The subcontracts, for technical and specialized services and equipment, are in connection with the development and operation of the National Aeronautics and Space Administration's Mississippi Test Facility where rocket engines and stages of large space exploration vehicles will be static tested.

General Electric is prime contractor to NASA for plant and technical support at the 142,000-acre site. MTF is a component of the NASA George C. Marshall Space Flight Center at Huntsville, Ala.

Four other subcontracts, involving fire protection, skilled trades, custodial and maintenance work, were extended for varying periods at a cost of \$282,535.

JAYCEE COMMUNITY DEVELOPMENT SURVEY STARTED

Through out our great State, we constantly hear cries, "Why doesn't the State do this or that in an attempt to promote and encourage civic and economic development?" The State is YOU and its accomplishments will only be what you want to work for. The Bay St. Louis Jaycees and the Mississippi Jaycees want to be one of the keys to Mississippi's growth and they have initiated a statewide program that will benefit everyone.

On September 18, Mac Haas and Jack Campbell attended the Community Development Survey seminar in Greenville, Mississippi to complete plans for a Statewide Community Development Survey. Nearly every Jaycee Chapter in the state will conduct this survey during the two week period of September 27 - October 9, 1965. The Bay St. Louis Jaycees are proud to be a part of this unique program. The purpose of this project is to determine the opinions of Mississippians as to the needs in their communities. Information gained in this manner will be the basis for future Jaycee programs and will be made available to our City officials and other civic organizations.

Mac Haas, local Jaycee President stated that the questionnaire designed to be analyzed by IBM, will cover city services, recreational opportunities for all ages, educational facilities, job opportunities, industrial development and other phases of community life. He said that the survey is in no way political but merely reflects the attitudes of the citizens of Bay St. Louis.

This is the first time any State Jaycee organization has attempted this program on a statewide level, although the plan has been successfully used on local levels in cities throughout America. The results will be analyzed from each community participating and will also be compiled to reflect the opinions of the entire state.

HANCOCK RELATIONS COUNCIL TO MEET SEPTEMBER 28

The Hancock County Community Relations Council will hold its next regular membership meeting on Tuesday evening, September 28, 1965, at 8 o'clock, P. M. at the Merit Hall, Our Lady of the Gulf Catholic Church.

The Community Relations Council is an organization whose purpose is to attempt to create a climate of opinion favorable to an expansion of opportunity for all people in this area in economic, civic, and cultural areas based on freedom from discrimination because of race, religion, or national origin.

Anyone interested in becoming a member of this organization is invited to attend the meeting of the Council.

WAIVES HEARING FEDERAL CHARGE

A Bay St. Louis resident waived preliminary hearing Saturday at Biloxi on a federal charge.

U. S. Commissioner Verta Lee Bosarge fixed bond of \$1,000 on Alvie Lee Sims, 34, who waived hearing on a charge of unlawful flight from Florida to avoid prosecution for forgery.

LAZY "Y" RODEO SEPTEMBER 24-25

Lazy "Y" Stables will sponsor a rodeo September 24-25 and 26. Mrs. Betty Younger Haas, owner of the stables announced performances Friday and Saturday will begin at 8 p.m. and at 1 p.m. Sunday. There will be a parade at 10 a.m. Saturday.

Telephone crews, working day and night, have all phones back in service. All telephone service affected by Betsy and restored on a temporary basis has been permanently repaired, too.

C. L. Lott, vice president and general manager for Southern Bell's Mississippi operations, said generally telephone plant withstood the storm very well.

"Some calls into the storm areas were delayed," Mr. Lott said and "we appreciate the public's understanding." Calls again are being handled currently between points in Mississippi.

Hurricane Betsy turned out to be the Bell System's most costly storm. Telephone damage in Florida, Louisiana, Alabama and Mississippi totaled \$124 million. Three hurricanes in the Northeast in the 1950's knocked out larger numbers of Bell telephones, but cost of restoration after Betsy will be the highest ever for a Bell System disaster.

INVITED TO ATTEND ORGANIZATIONAL MEET

Members of the alumni association of St. Stanislaus who reside in the Gulf Coast area are invited to attend a Coast Chapter organizational meeting to be held on Wednesday evening, September 22, at Gus Stevens' restaurant, Henderson Point at 7 o'clock.

HAPPY LANDING

This takes nerve! Imagine dropping into space with nothing but a "silk umbrella" between you and eternity! Yet men do it every day, and they trust that umbrella as we would trust our best friend.

Faith is something like that white parachute, as thousands upon thousands of Christians can testify. Faith upholds you and supports you, no matter how rough the going may be. Without faith in a loving God, man is very much alone... and man was never meant to deal with life's problems by himself.

Like the first parachute jump, faith isn't easy at the beginning. It takes courage to hand over the reins of one's life, but you can be sure of one thing... you'll always land on your feet. Strengthen your faith by attending the church of your choice.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four main reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plans to go to church regularly and read your Bible daily.

OYSTERING IN STATE TEMPORARILY CLOSED

Harvesting of oysters in Mississippi was discontinued temporarily Friday night because of fear that Hurricane Betsy may have caused contamination of the reefs.

The Mississippi Marine Conservation Commission is acting on an order issued by the Mississippi State Board of Health, closed all oyster reefs in the state through Sept. 30.

Commissioner Mike Sekul expressed concern over the closing of the season, but he was assured by the chairman, Charles E. Weems, that both federal and state authorities had expressed favor of the temporary closure.

The commission acted after reading a letter from William B. Moorer, Shellfish sanitation, state board of health which was as follows:

"After making preliminary surveys of certain related facilities in our joint shellfish responsibilities, it is the opinion of the state board of health that certain public health hazards could exist, which were brought about by the hurricane which struck the Mississippi Coast on the night of Sept. 9, 1965. Therefore, in order to protect the public health, it is felt that all shellfish growing areas be closed for harvesting purposes from this date through Sept. 30, 1965."

By order of the executive officer, Dr. A. L. Gray.

After discussion, conservation commissioners said they thought the move might be wise because of conditions that exist in the Pass Christian area.

In this area, where most of the state's oysters are produced, they said the water was dirty at the time and could contaminate the reefs.

The action might prevent an incident which could cause permanent trouble to the oystering industry in Mississippi this year, they agreed.

During the 13-day period the season will be closed, the conservation commission will closely patrol the reefs day and night, Chairman Weems stated.
